Books and reports:

Managing Climate Change and Sustainability through Behavioural Transformation by Parul Rishi

- Addresses climate change and sustainability management from a transdisciplinary perspective focusing behavioral science
- Argues for limited inclusion of pluralistic perspectives and resultant limited acceptability
- Integrates other humanistic fields of understanding to present a holistic standpoint

“Green nudges” : new incentives for ecological behaviour by Centre d’Analyse Stratégique

- Green nudges are an interesting approach as an addition to traditional tools of environmental policy
- However, to be truly effective and more than just anecdotal, the use of nudges needs to be incorporated into a consistent environmental policy.
