**Research Highlights**

- **Pathways Forum #11 - From grassroots to courtrooms: litigation as a tool for environmental change:**
  - The next path of our forum, focused on understanding and overcoming community roadblocks to collaboration and the educational pathways to making such collaborations sustainable and inclusive ideas for transformation, the need to acknowledge positionalities and privileges of different communities and their ability to contribute to their own environmental recovery and resilience.

- **Paths for the Future of the UNFCCC COP? How might this impact communities?**
  - To raise awareness of the UN’s Sustainable Development Goals and the role of small-scale farmers, this panel will present research insights on the current state of agriculture and sustainability, and the need for transformative change towards degrowth and co-prosperity.
